NOTICE TO THE MARKET

CPFL ENERGIA INCLUDED IN THE ICO2

CPFL Energia S.A. ("**CPFL Energia**") announces to its shareholders and the market that, as from yesterday, January 6th, 2025, it is a component stock of the **Carbon Efficient Index** ("**ICO2**") of the São Paulo Stock Exchange ("**B3**"), which is formed by the stocks of companies in the IBrX-100 that adopt transparent practices with regard to their greenhouse gas (GHG) emissions.

ICO2 was created in 2010 and, since the beginning, was intended to be an instrument to induce the debate of climate change in Brazil. The companies' adherence to ICO2 demonstrates their commitments on the climate change agenda and anticipates the view of how they are driving actions for a low carbon economy transition.

Since this year's selection process, a new methodology for analyzing participating companies has been adopted, which has allowed for an even deeper assessment on how they manage their GHG Emissions and on their emission results/revenues ratio.

The new ICO2 portfolio, which will be valid from 01/06/2025 to 04/30/2025, gathers 64 stocks of 61 companies, from 23 sectors, that corresponds to the 75% of companies with the best emission score in each sector.

Campinas, January 7th, 2025.
